- Zurn Alumicor- Pex Aluminum Pex

#### **CAUTION!**

Viega Fostapex is not approved, the diameter is too large to fit into the Warmboard groove.

#### **Notes about Pex Aluminum Pex and HePex:**

Other brands of Pex Aluminum Pex may be acceptable. Please check with Warmboard's Technical Department.

The use of Pex Aluminum Pex or HePex eliminates the need for silicone during installation.

Use nail plates to hold down tubing in channels and remove them before the installation of finish floors.
