WARMBOARD WINS IN THE 2008 GREEN LOG HOME & LIFESTYLE AWARDS™

(APTOS, CA) June 19, 2008 – Warmboard is honored to be selected as an Overall Winner in the Inaugural 2008 Green Log Home & Lifestyle Awards.

Warmboard won the Radiant Heat Systems category with the Environment News Service saying: “The best product in this category is Warmboard, with its very innovative design.”

Winners were selected by a combination of an expert advisory panel at Environment News Service and the final tally of the public online voting. Online voting counted for 40% of the vote, while ENS's choice counted for 60%.

Tony Gasparich, President and COO of Warmboard Inc. said, “It is a privilege to be chosen for this award by both the public and Environment News Service. There is tremendous potential to educate homeowners and trades people about green, sustainable products and building practices available today.”

The Green Log Home and Lifestyle Awards, over the past five months, tapped the power of Internet social media, from YouTube and social news to social networking and blogging, to nominate, educate and celebrate green products and services at their best.

###

About Warmboard Radiant Subfloor:

Warmboard is a patented technology invented by Terry Alsberg in the early 90s, and has redefined radiant flooring with its design simplicity. Warmboard is a “simply smarter” radiant heat product, with faster response, even floor temperatures, higher output from lower water temperatures, and compatibility with numerous floor coverings. The product is currently marketed to architects, contractors and homeowners. Warmboard is available throughout North America, and has shipped its product into Canada, Europe, the United Kingdom, Japan and Antarctica. For more information about Warmboard please visit www.warmboard.com.

About Green Log Home & Lifestyle Awards™:

The Green Log Home & Lifestyle Awards program was created in response to the growing demand for green building solutions, products, and information. The goal of the awards was to locate and shine a spotlight on those companies and individuals who are enabling healthier homes and lifestyles and were founded by the non-profit organization, Green Log Awards, Inc., in cooperation with the Environment News Service (ENS).
